

REMARKS

This application has been carefully reviewed in light of the Office Action dated June 16, 2004. Claims 1 and 3 remain pending in this application. Claim 1 is the independent claim.

Applicants note with appreciation the indication that Claims 2-3 would be allowable if rewritten in independent form including all the limitations of the base claim and any intervening claims. Applicants have so amended the claims, and respectfully believe them to be in condition for allowance.

In response to the objection to the drawings, Applicants respectfully request that substitute Figs. 1-4, including labels in boxes replace existing Figs. 1-4. Two (2) copies of substitute Figs. 1-4 are included herewith and contain no new matter. Applicants respectfully believe the changes to Figs. 1-4 adequately respond to the objection to the drawings and respectfully request its withdrawal.

In response to the Office Action's objection to the specification for failing to provide subtitles, Applicants gratefully acknowledge the Office Action's suggestion however respectfully decline to add the headings, as they are not required in accordance with MPEP §608.01(a).

In response to the Office Action's objection to Claim 1, Applicants respectfully believe the amendments to Claim 1 adequately respond to the objection and request its withdrawal. Further on the merits, the Office Action rejected Claim 1 under 35 U.S.C. § 102(b) as being anticipated by Benayoun et al. (U.S. Patent No. 5,790,608; hereinafter "Benayoun"). Applicants respectfully believe that the incorporation of Claim 2 into Claim 1 renders the rejection moot and respectfully request its withdrawal.

In view of the foregoing remarks, Applicants respectfully request favorable reconsideration and early passage to issue of the present application. Applicants' undersigned attorney may be reached by telephone at the number given below.

Respectfully submitted,

By 

Aaron Waxler
